Jay Johnson Water Superintendent was present but not on agenda – he wanted to make sure everyone was aware that there is still testing and studies being done to solve the water taste/odor issues this is a process that takes time and we don't want to solve one issue just to have something else later if it can be handled with this one upgrade/change.

Alecia Roper a citizen of Moulton was present and said she had just come to attend the meeting because she had never been to one. Mayor Weatherwax had spoken to her previous about drainage issues in the Evergreen Subdivision where she lives and is hoping that the Core of Engineers will be able to assist in this matter as he had brought this and other areas to their attention last year.
