Updates from the Mayor on how the weather effected the area: The water treatment plant had an electrical problem earlier in week that was fixed. Water Distribution was good up until this afternoon when a leak at Hillsboro Rd(Co Rd 170) possibly caused by a wreck had residents in the Yarbrough and Livingston Subdivisions out of water and they were working on the repair prior to the meeting. Police Chief Knight said their department went well as officers were instructed to drive the older cars and if they lived in town to catch calls from home as they came in and if they didn't live in town to take calls from the City Hall or Fire Department. The Fire Department help transport health care workers to and from their jobs. Garbage service has resumed and will continue to run until there is no more cans out – customers are advised to place cans at road and if extra garbage put back in can and leave out and the rounds will continue until all garbage is collected. Park Department used the time to work in the concession stands to finish up work that needed to be completed. Street Department put out same salt in areas. Otherwise everything went as well as could be expected.
