Alicia addressed the Council on several concerns she has within the community. The first concern was pertaining to the Street Department and the street sweeper operating schedules. She particularly was worried about Oakleaf circle in Evergreen Subdivision. Next, she asked to have it publicized, the new Huntsville Hospital Urgent Care Center will not have an Emergency Room and is not considered a hospital. She was also worried about what would be done with the old splash pad and park after the new one was built. Mayor Jolly assured her the existing park would still be there, and the splash pad would be the only removal.

Lastly, she addressed Councilman Chris Proctor directly and he informed Mrs. Roper he would speak to her after the meeting.

Councilman Danny Morris added a comment on streetlights being out on Market Street and the cemetery lights were not working. Mayor Jolly said the issues were in the process of being resolved.
